

## COMUNICAZIONI

Angela Alberico - Andrea Cianchi – <i>Moser type estimates in nonlinear Neumann problems</i> . . . . .	pag.	363
A. Alvino - R. Volpicelli - B. Volzone – <i>Comparison results for solutions of parabolic equations with a zero order term</i> . . . . .	”	369
G. Arena - A.O. Caruso - A. Causa – <i>Formula di Taylor nei gruppi di Carnot e applicazioni</i> . . . . .	”	375
Elena Beretta - Elisa Francini – <i>Thin inclusions in an elastic body</i> . . . . .	”	385
M.F. Betta - F. Chiacchio - A. Ferone – <i>Eigenvalue problems and Gauss measure</i> . . . . .	”	389
Francesco Borrello – <i>Regularity for degenerate elliptic equations under minimal assumptions</i> . . . . .	”	397
Marco Bramanti – <i>Gaussian bounds for heat kernels in the setting of Hörmander vector fields</i> . . . . .	”	403
B. Brandolini - M. Cicalese - C. Nitsch - C. Trombetti – <i>Some remarks on the extinction time for the mean curvature flow</i> . . . . .	”	411
F. Brock - F. Chiacchio - A. Mercaldo – <i>An isoperimetric inequality related to gaussian measure and applications</i> . . . . .	”	419
Stefano Campi – <i>Three-dimensional Bonnesen type inequalities</i> . . . . .	”	425
Pasquale Candito – <i>Esistenza di soluzioni per un problema di Neumann</i> . . . . .	”	433
Simone Cecchini – <i>Qualitative properties of free boundaries with Bernoulli type conditions</i> . . . . .	”	439
Giulio Ciraolo – <i>Wave propagation in optical waveguides</i> . . . . .	”	445
Salvatore D’Asero – <i>Diseguaglianza di tipo Harnack per le soluzioni di equazioni ellittiche non lineari di ordine superiore</i> . . . . .	”	451
G. Di Blasio - F. Feo - M.R. Posteraro – <i>Linear elliptic equations related to Gauss measure</i> . . . . .	”	455
G. Di Fazio - C.E. Gutiérrez - E. Lanconelli – <i>Analysis on metric spaces and applications to PDE’s</i> . . . . .	”	461
G. Di Fazio - A. Domokos - M.S. Fanciullo - J.J. Manfredi – $C_{loc}^{l,\alpha}$ regularity for subelliptic $p$ -harmonic functions in Grušin plane . . . . .	”	469.

Sofia Giuffrè - Giovanna Idone – <i>Infinite dimensional lagrangean theory and applications to generalized complementarity problems . . . . .</i>	”	475
Roberto Livrea – <i>Esistenza e classificazione di punti critici per funzioni non differenziabili . . . . .</i>	”	481
Paolo Falsaperla - Fabio Raciti – <i>A direct method for the calculation of the equilibrium in the traffic network problem . . . . .</i>	”	489
Maria Alessandra Ragusa – <i>Trends and topics on some partial differential equations and systems . . . . .</i>	”	497
Stella Vernier Piro – <i>Some decay results for solutions of parabolic problems . . .</i>	”	507
Giuseppe Di Fazio - Pietro Zamboni – <i>Strong <math>A_\infty</math> weights and quasilinear elliptic equations . . . . .</i>	”	513
